

BrakeKit

Newly designed left hand rear brake kit allows the maximum in control by offering a second way to apply the rear brake. Compact master cylinder and lever nestle neatly under or over your existing clutch lever for an easy to reach rear brake lever. Gain a newfound freedom that will surely put a smile on your face and leave the competition envious.

- Easy to install
- High quality components
- Frees up your foot for right-hand corners
- Allows for easier technical riding
- Retains the use of the rear brake pedal
