

■ REKLUSE CLUTCH COVER

Rekluse offers clutch covers for many models. Constructed of billet aluminum for increased strength and durability, the clutch cover is deeper than stock to allowing a greater volume of oil in the engine. The cover also allows you to use a stock gasket with the z-Start Pro Clutch instead of the provided thicker gasket.

■ Billet aluminum strength for increased durability

■ Deeper than stock, allowing for increased oil capacity

■ Allows use of stock gasket with your Rekluse Clutch

■ Designed to complement your Rekluse Clutch
